Agenda

1. Introduction

2. Definition

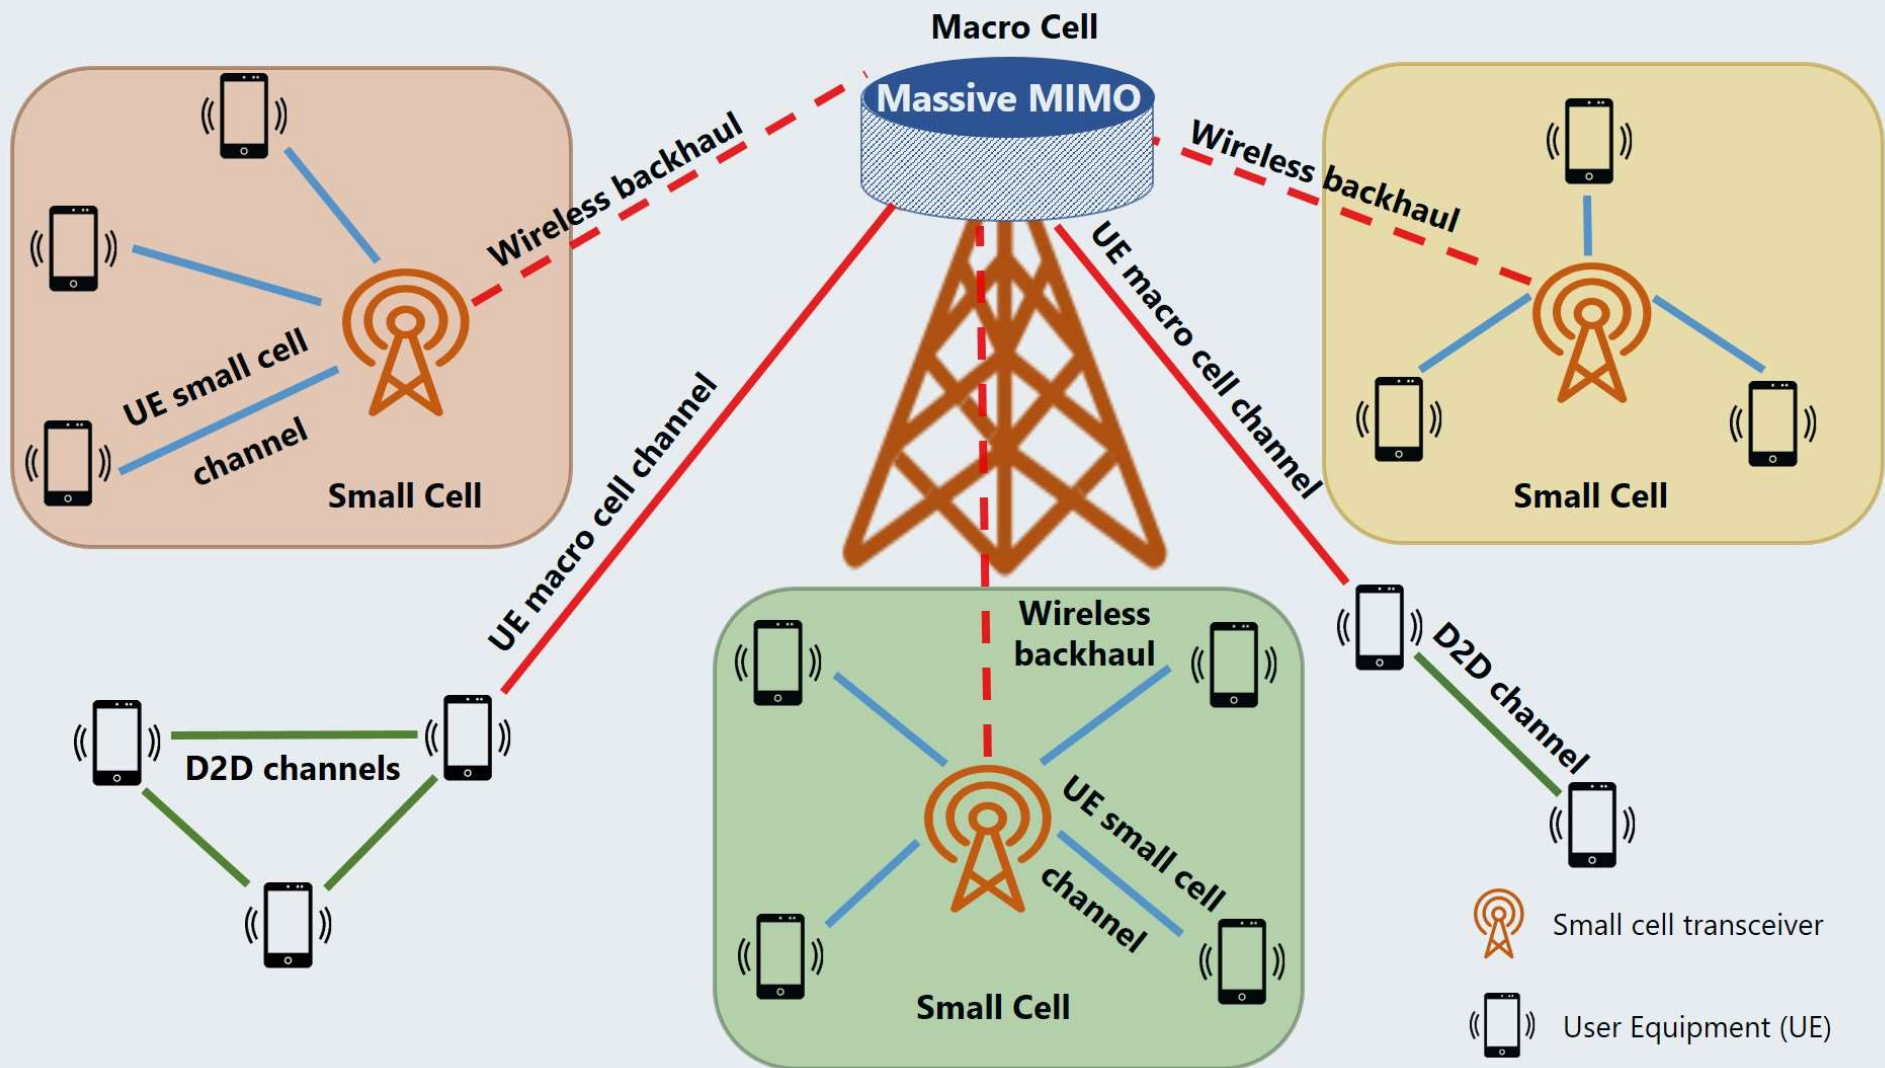

3. Logical Channels

4. Transport Channels

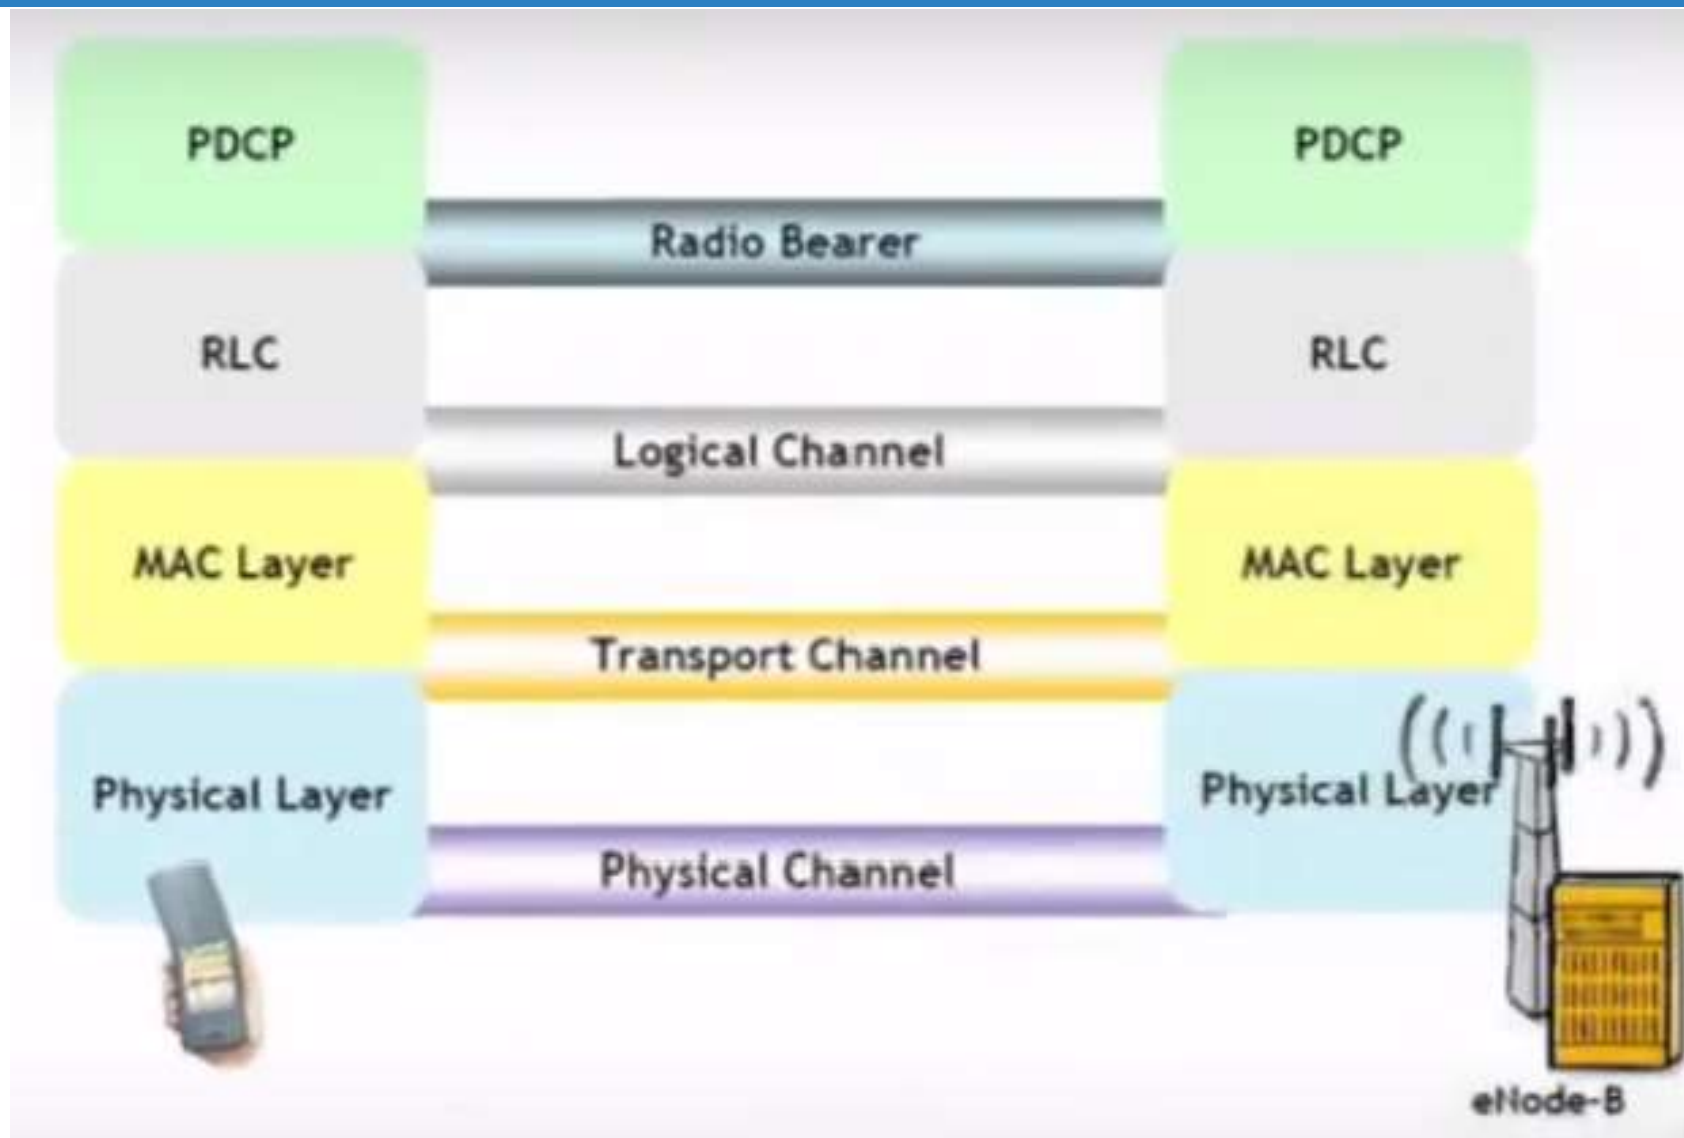

5. Physical Channels

6. Q & A

Introduction

Definition

Logical Channels

Logical Channels

Logical channels

❖ BCCH

- System information (MIB, SIB) in SA
- Downlink only

❖ PCCH

- Paging message for LTE_IDLE UE in SA
- Downlink only

❖ CCCH

- Initial access signaling for RRC_IDLE UE

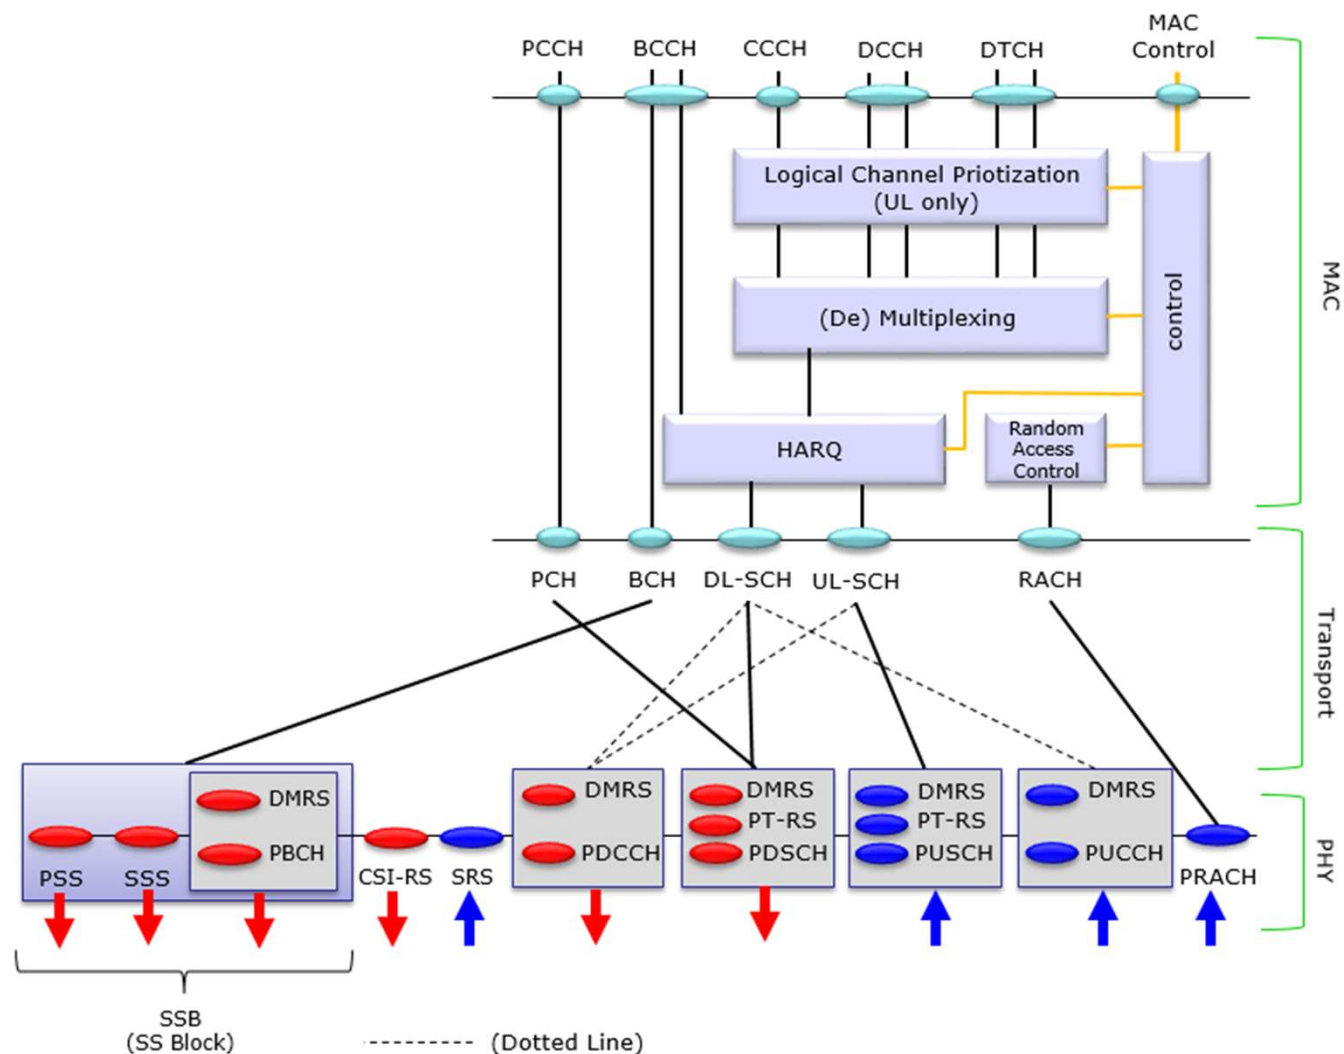

❖ DCCH

- Dedicated signaling with one UE

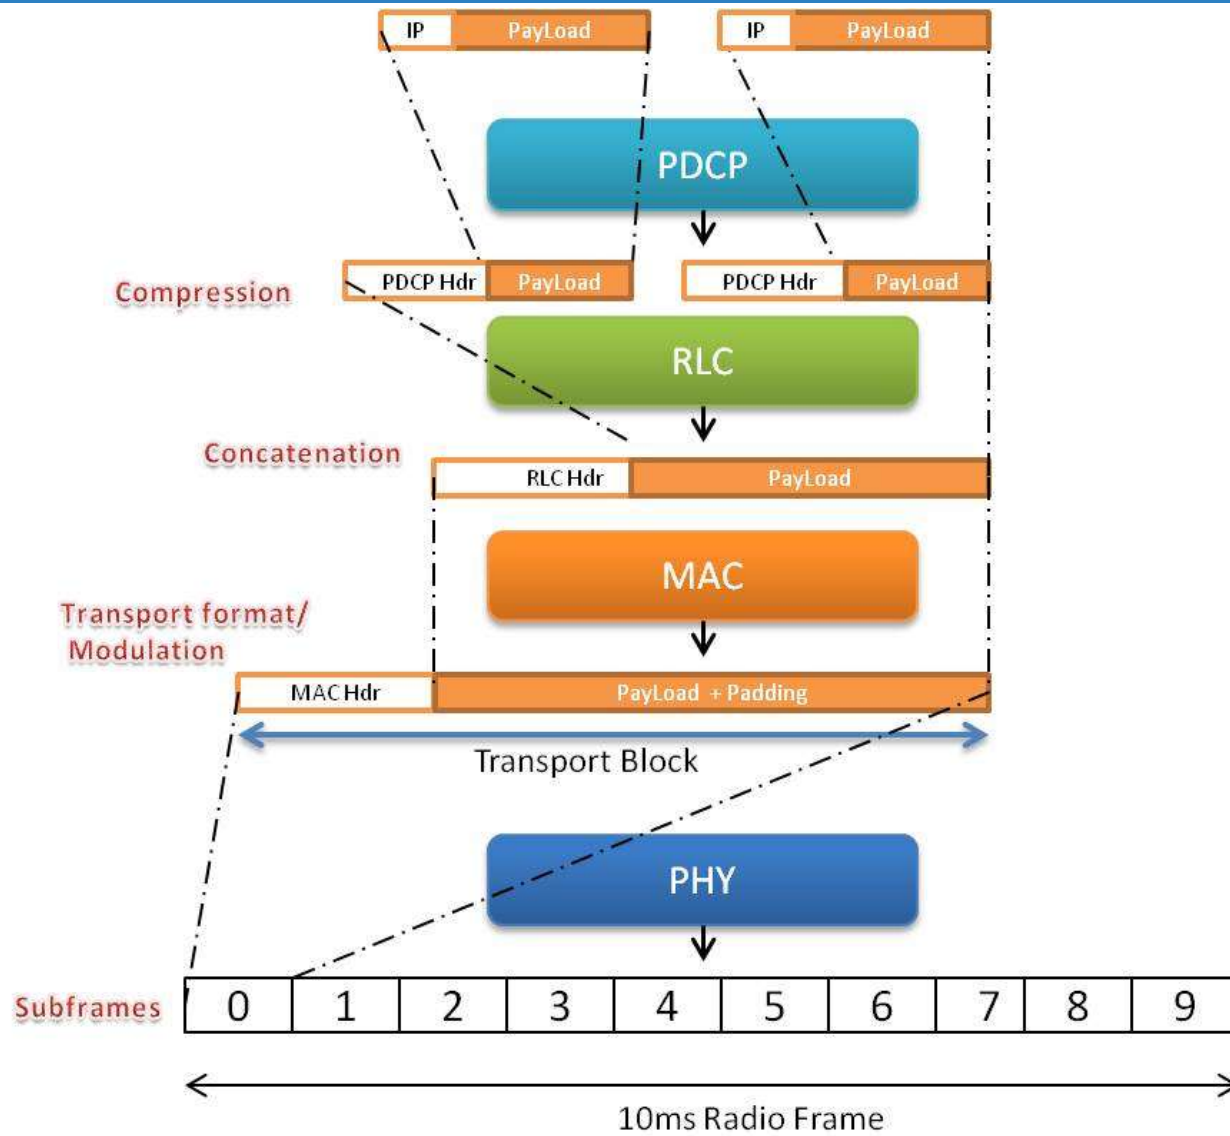

❖ DTCH

- IP User Plane Data

Transport Channel

Transport Block

Transport Channels

❖ BCH (Broadcast channel)

- Transmit MIB

❖ PCH (Paging channel)

- Transmit paging message

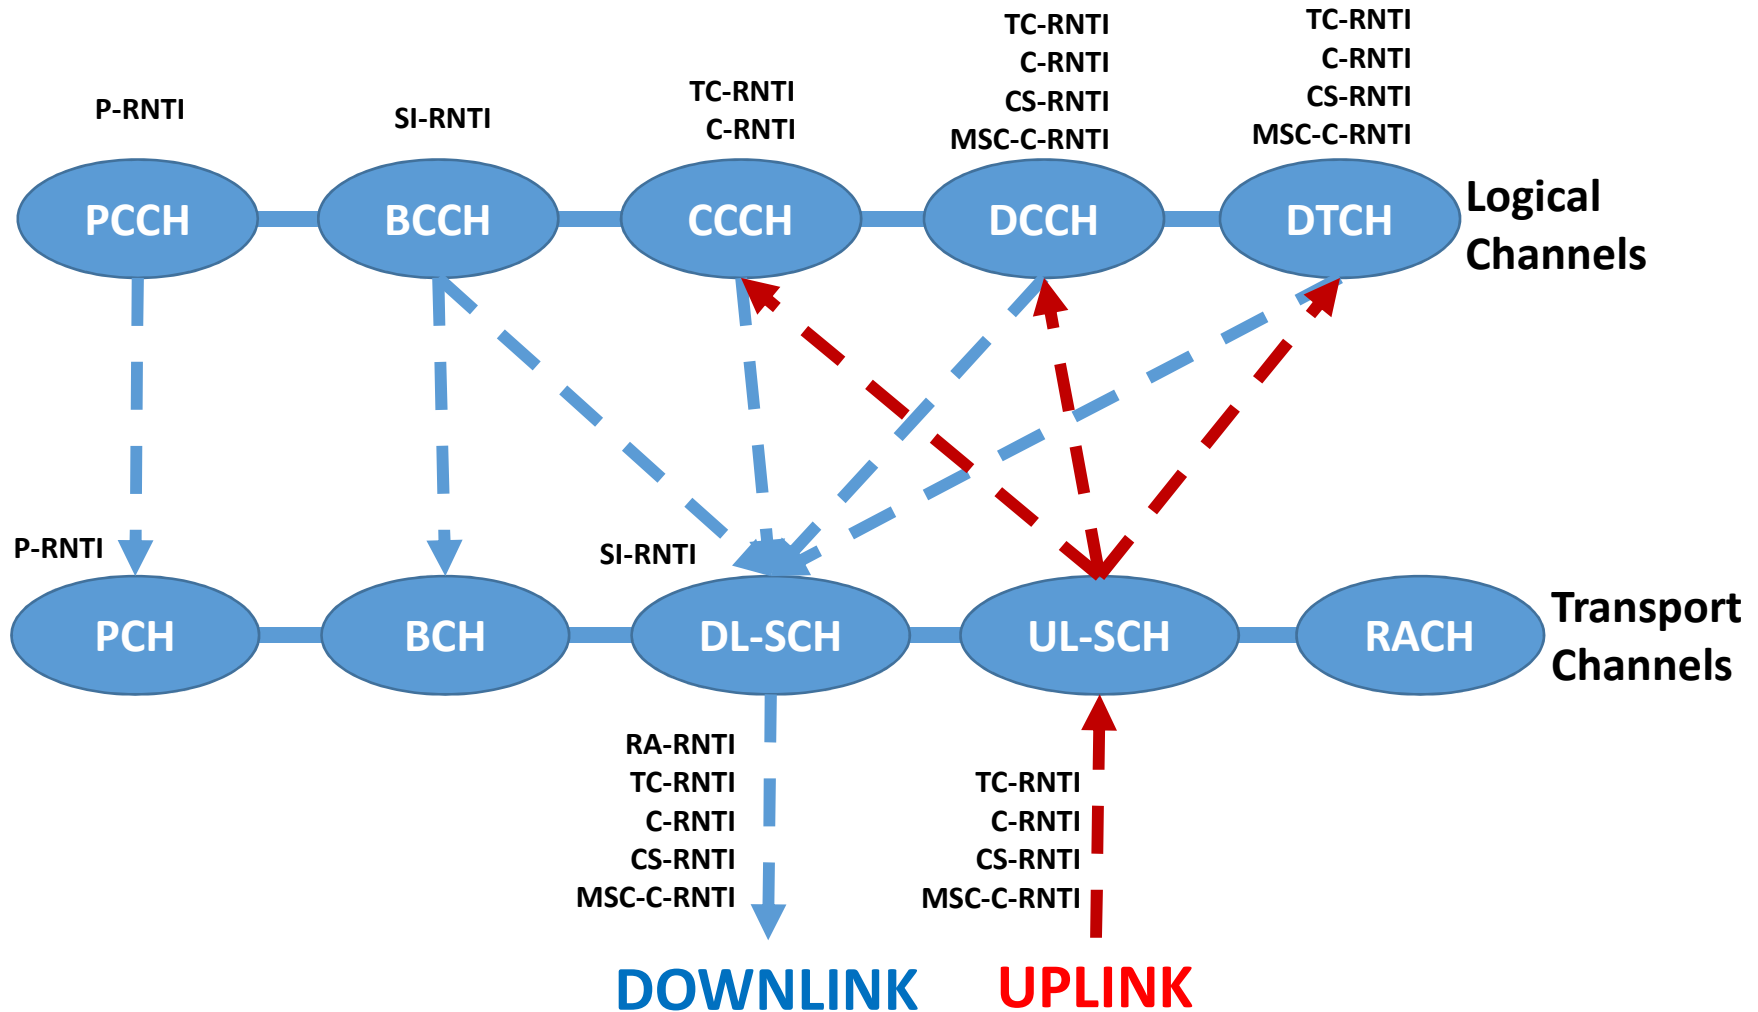

❖ RACH (Random access channel)

❖ DL-SCH (Downlink shared channel)

- Transmit downlink data in 5G
- Transmit SIB
- Support all 5G features:
 - Dynamic Rate Adaption
 - Channel Aware scheduling
 - HARQ
 - Spatial Multiplexing

❖ UL-SCH (Uplink shared channel)

Transport channels mapping

Physical Channels

❖ PBCH(Physical broadcast channel)

❖ PRACH(Physical Random-access channel)

- Not carry transport block

❖ PDSCH(Physical downlink shared channel)

- Unicast data transmission
- Random access response
- System information

❖ PDCCH(Physical downlink control channel)

- DCI (Downlink Control Information)
- Scheduling decision
- PD-SCH related information
- Scheduling grant for uplink data

Physical Channels

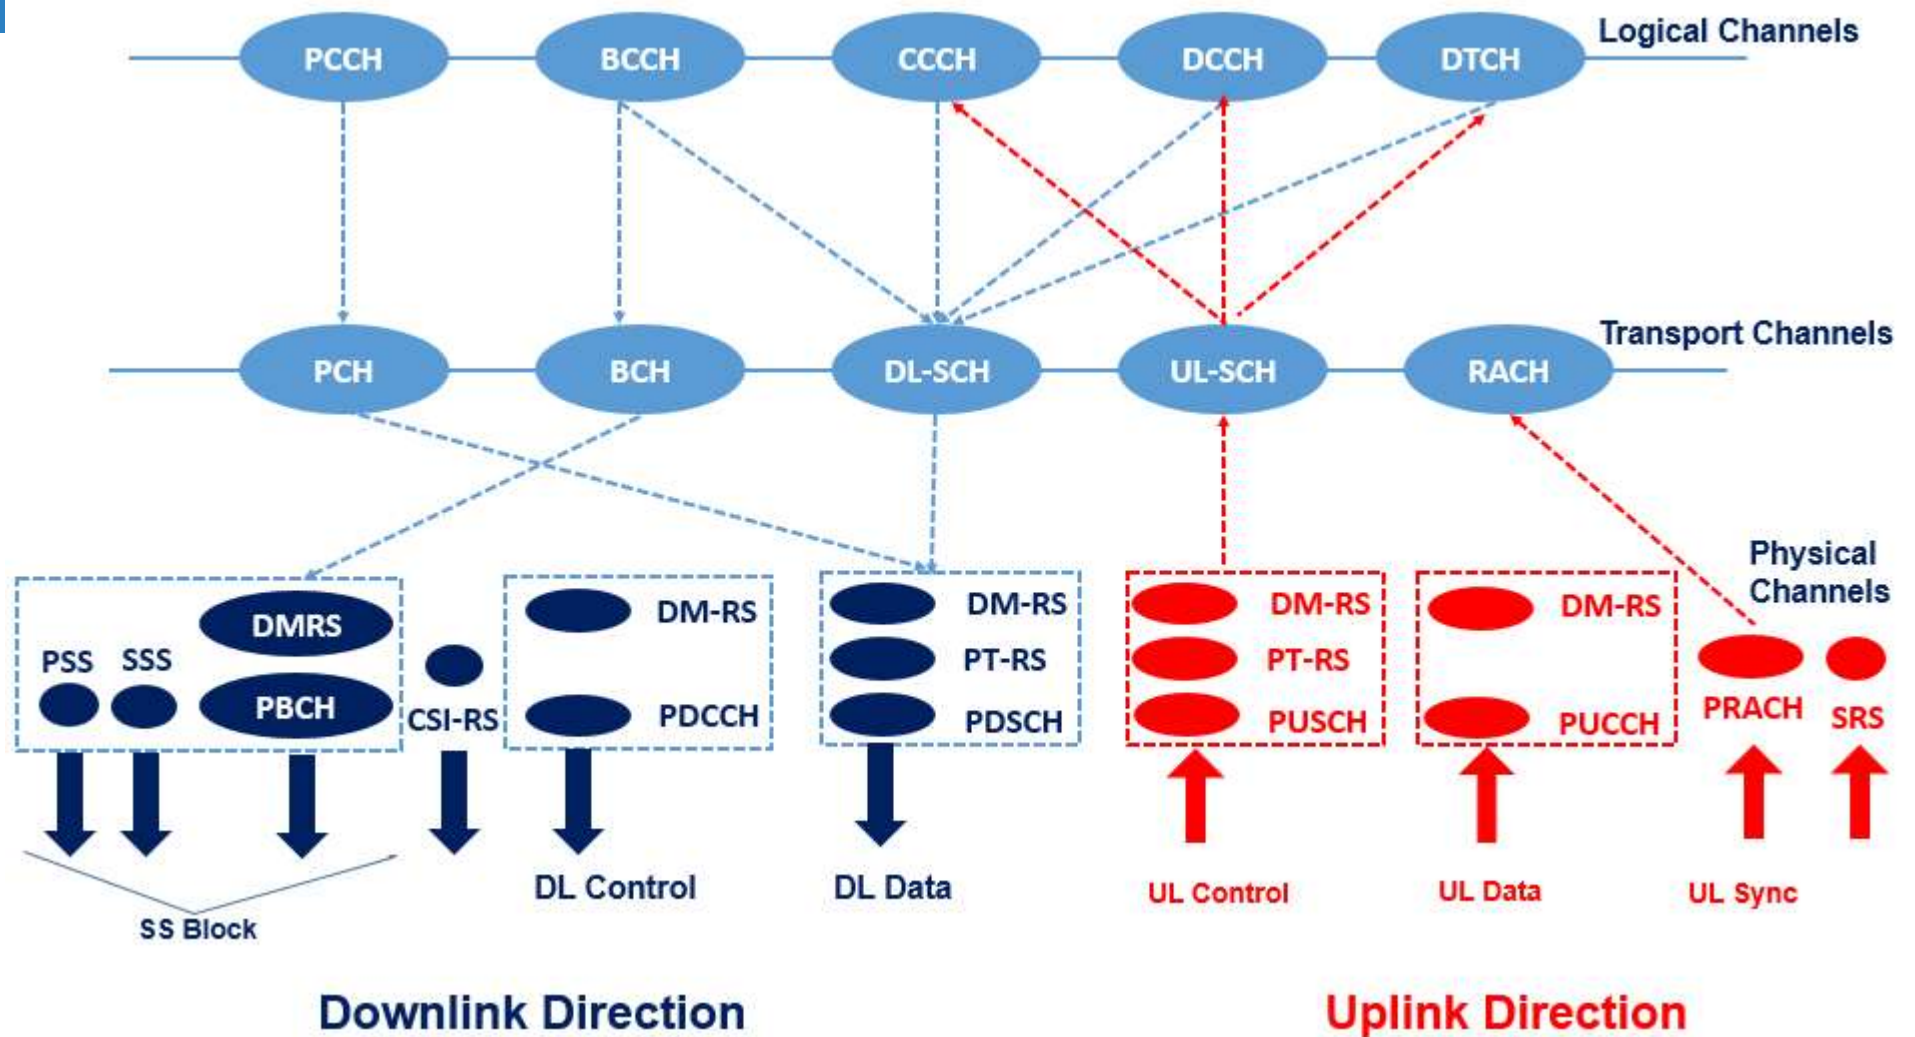

❖ PUSCH(Physical uplink shared channel)

- Uplink data
- DRX algorithms for device power saving

❖ PUCCH(Physical uplink control channel)

- Uplink control information(UCI)
- PU-SCH related information
- HARQ ACK/NACK
- CQI Report

Physical Channels mapping

Reference Signal

❖ Demodulation Reference Signal (DMRS)

- Used for channel estimation and demodulation

❖ Phase Tracking Reference Signal (PTRS)

- Used for PDSCH phase tracking

❖ Sounding Reference Signal (SRS)

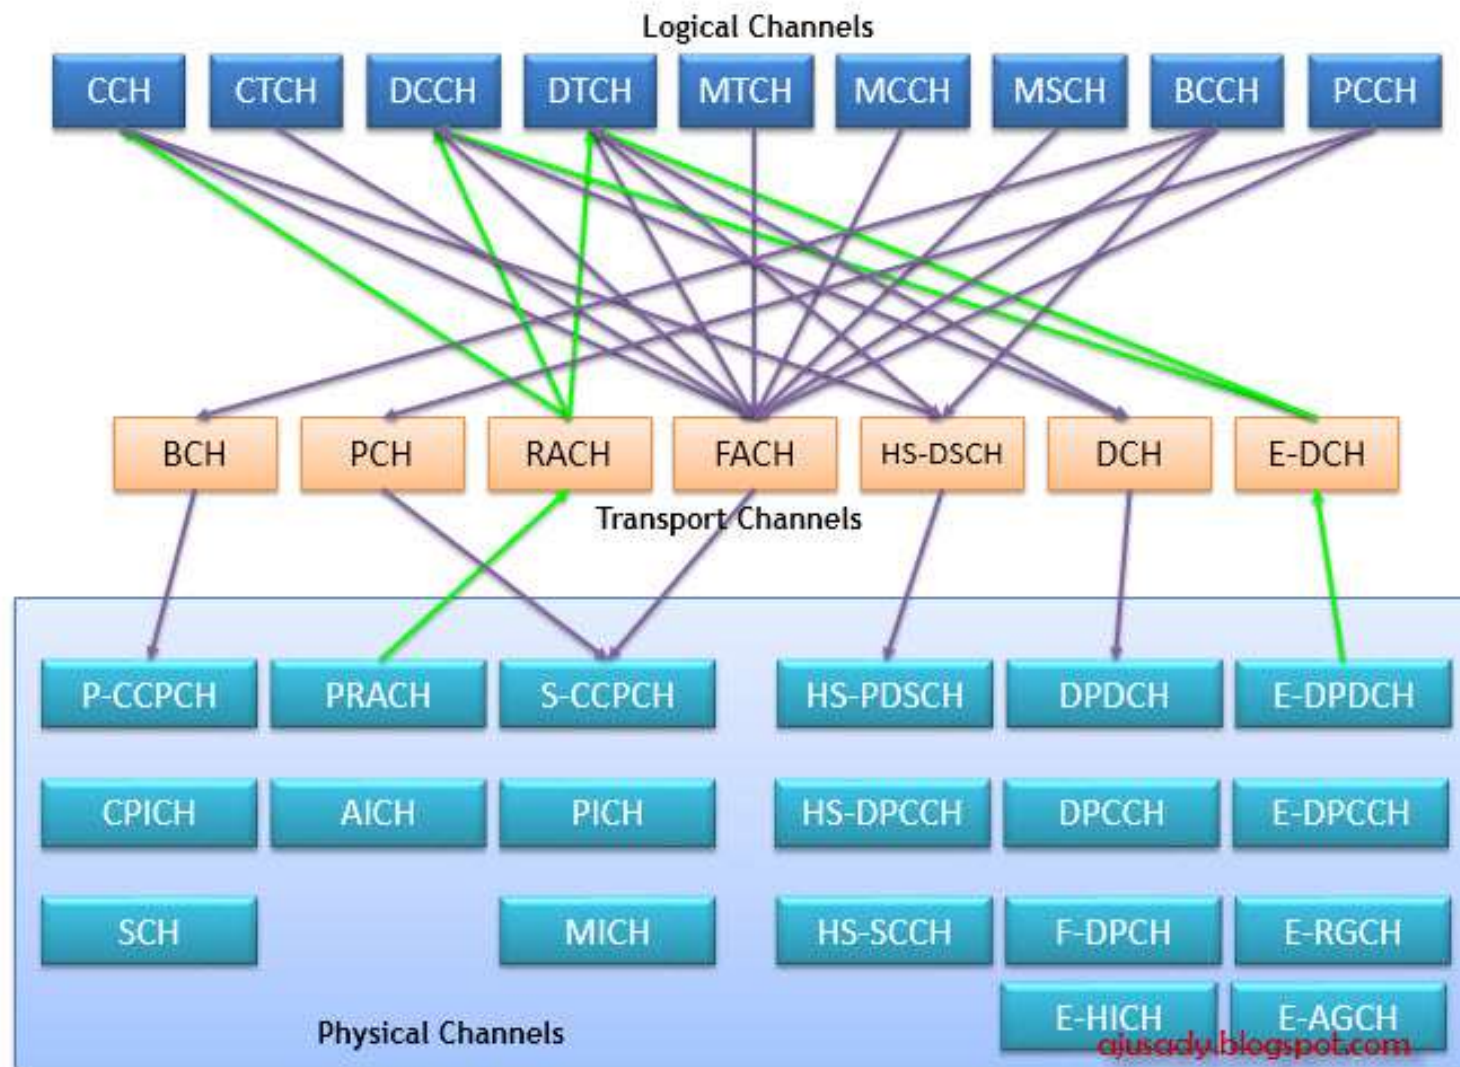

- System uses the SRS for resource scheduling, link adaptation, Massive MIMO, and beam management

❖ Channel State Information Reference Signal (CSI-RS)

- Used for getting CSI (channel state information)
- Used for beam management

❖ References: 3GPP TS 38.211, TS 38.212, TS 38.213

UMTS Channels mapping

Q&A
